Exercise on refactoring

Exercise

▸ Refactor the Java program you can find on Moodle (try without hints first)

  ▸ To run it, you must download the JDBC SQLite driver

▸ Criteria of refactoring:

  ▸ Make it more flexible

  ▸ Make it more readable

  ▸ Rely on small methods

  ▸ Avoid code duplication

  ▸ Manage errors in a more complete and fine-grain way

▸ Do not modify the functionalities and the interfaces (the method signatures)
